

DHRITHI ASHOKKUMAR

Philadelphia, PA | (610)-400-7768 | ashokkumar.dhrithi@gmail.com | [LinkedIn](#)

EDUCATION

Drexel University | Philadelphia, PA

Anticipated Graduation June 2027

B.S. Computer Science

Concentrations: Artificial Intelligence and Machine Learning, Software Engineering

Minors: Data Science, Animation and Visual Effects

SKILLS

Languages: Python (scikit-learn, Pandas, Seaborn, NumPy, SQLAlchemy), Java, C, JavaScript, TypeScript, R, HTML, CSS

Frameworks & Tools: Git, Unix, Docker, PyTorch, Relational DBs (MySQL, Postgres), MongoDB, Oracle SQL Developer

Cloud & Deployment: AWS (SQS, Lambda), Kubernetes, GCP, REST APIs, Concourse CI, DevOps

AI & Automation: Microsoft Copilot Studio, Power Automate

EXPERIENCE

CSL Behring | King of Prussia, PA

September 2025 — Present

AI Automation Co-op

- Developed AI automation solutions with Copilot Studio and Power Automate to support enterprise workflows
- Designed agent-based solutions (FAQ agents, search agents, intake automations) used by internal stakeholders
- Collaborated with cross-functional teams to document processes and scale reusable automation components
- Supporting ongoing AI initiatives post-co-op, contributing part-time while completing undergraduate degree

Comcast Cable | Philadelphia, PA

September 2024 — March 2025

Software Engineer Co-op

- Engineered ~30 front-end and back-end API functions with SQLAlchemy for efficient PostgreSQL data handling
- Maintained and enhanced CI/CD pipelines with Concourse to automate build, test, and deployment processes
- Created unit and integration tests, utilizing AWS SQS and AWS Lambda to validate message workflows
- Applied test-driven development and collaborated in code reviews via Jira within an Agile Scrum framework

Twelve Gates Arts | Philadelphia, PA

September 2023 — March 2024

Social Media and Program Coordinator Co-op

- Oversaw all digital marketing and PR responsibilities, including content creation for social media and website
- Directed all events and programs at the gallery, including 5 exhibitions displaying South Asian culture

PROJECTS

CNOW AI Chatbot for Comcast | Philly Codefest 2024 Submission ([Git](#))

April 2024

- Team developed AI chatbot using OpenAI's API to recommend Xfinity plans based on customer needs and budget
- Implemented Flask and Java for back-end, used Figma, HTML, and CSS to build and design front-end
- Integrated Python to connect AI functionality with HTML, deployed project as live website via AWS Amplify

CERTIFICATIONS AND TRAINING

DataCamp

- [Data Analyst with Python](#) (2023)
- [Associate Data Scientist in Python](#) (2024)
- [Data Scientist Professional in Python](#) (2024)
- [Machine Learning Fundamentals in Python](#) (2025)

Databricks

- [Generative AI Fundamentals](#) (2024)
- [Generative AI Engineering](#) (2024)

Google Cloud

- [Introduction to Generative AI Learning Path](#) (2024)

RELEVANT COURSEWORK

- CS 260 (Data Structures), CS 380 (Artificial Intelligence), SE 310 (Software Design), CS 277 (Algorithms and Analysis), CS 283 (Systems Programming), MATH 201 (Linear Algebra), MATH 311 (Probability and Statistics)
